EXPERIENCE

Attending Surgeon

2009-PRESENT

- Lead and assist in a variety of surgical procedures to address abnormalities, injuries, birth defects, and tumors from patients under a variety of circumstances.
- Communicate with patients and other medical professionals to create a treatment plan that includes preoperative preparations, surgical protocols, and postoperative care.
- Prepare reports during pre- and post-surgical hospital stays.

Resident Surgeon

2007-2009

- Diagnosed medical conditions based on observation, physical examination, family history, and patient concerns.
- Recognized by the hospital of employment as the top surgeons in the program with high positive feedback from colleagues and patients.

Hobbies and Interests

Run a free camp every six months for free checkup in rural areas. I am actively involved in several community charities throughout my state. I support local homeless shelter by providing free physician services once every two months.

SKILLS

- Strong Problem-solving skills
- Compassionate and Humble with patients and staff.
- Skilled at surgical procedures to emergency response, trauma surgeries, etc.
